ABOUT

I started doing production work when I was 12 and immediately developed a passion for it. Since then I've kept pushing myself to learn more and sharpen my skills, working with many people and organizations on events ranging from corporate shows to church youth retreats.

I may be young, but I'm a hard worker and a quick learner. Taking on more and more roles has taught me to manage my time well and make sure every employer gets the time I've promised them.
